

General Permission to Publish

Gundaroo Public School

Dear Parent/Caregiver,

We are beginning to look into celebrating the amazing teaching and learning that occurs at our school through sharing stories and photos on our school Facebook page. The purpose of this is to share experiences, inform the school and broader community about school and student activities and recording student participation in noteworthy projects or community service.

This information may include your child's name, age, class and information collected at school such as photographs, sound and visual recordings of your child, your child's work and expressions of opinion such as in interactive media. Your child's full name will never be posted online.

This is a decision we want all families involved with and will not share any photos of students without written consent from both the parent/carer and child.

Parents and students should be aware that when information is published on social media channels, such as Facebook, it can be discoverable online for a number of years, if not permanently. Search engines may also cache or retain copies of published information. Published information can also be linked to by third parties. A child's agency is important when it comes to making decisions about their online presence.

Yours sincerely,

Rebecca Harris

Permission to Publish

I have read this permission to publish and:

Tick the appropriate box

I give permission

I do not give permission

to the school to publish information about (child's name) as described above, including in publicly accessible communications. This signed permission remains effective until I advise the school otherwise.
